

Round table on stakeholder's expectation

« Optimization of the autorisation system within the southern zone »

Denis TARDIT
UIPP Chairman

**Mutual recognition, an opportunity for plant protection
within the southern zone
PARIS, 29 &30 April 2010**

Situation in France (1/2)

- Significant progress since 2006 in term of deadline respect for evaluation → DIVE,
- Building up of delays for decision,
- Some mutual recognition dossiers have been examined,
- Recognition of decisions made in other members state need to be accelerated.

Situation in France(2/2)

- Review of « Catalogue des usages » (uses catalogue) need to be completed to contribute to the prioritization process at Southern level,
- « Commission des usages orphelins », process lead by Ministry of Agriculture is contributing to the identification of priorities (minor uses and orphan uses) and solutions identification,
- France willing to play a significant role within the Southern Zone.

French industry expectations(1/2)

- Requirements for evaluation: clearly defined, harmonized and recognized by all MS,
- Benefit of use (biological dossier) :also harmonized, recognized and weighted at the right level,
- Collaboration between MS need to be improved to permit clear registration strategies.

French industry expectations 2/2)

- Deadlines respected by agencies and decision maker,
- Resources available at European level need to be identified to allocate the right priority for minor uses in each country,
- With all above, Industry will bring innovation in the countries :
 - more rapidly,
 - on more crops,
 - with less distortions of competition.
